Monopolet - A vibrant restaurant

When you step in through the arched entrance in Gullbergsvass, you're met by a large courtyard framed by old brick buildings. Monopolet is located in a garage that used to belong to the state-owned Vin & Sprit AB. It's difficult for visitors to miss the connection to the alcohol company, as it can be seen in everything from the vintage garage doors and murals to an old-fashioned still. Monopolet's historic premises tell a story few have heard, a story of a den of vice.

Magnus Söderström, one of the restaurateurs behind Monopolet, started his career 22 years ago, and previously ran Kooperativet Pagoden.

The basic concept of Monopolet is to offer street food at lunchtime and again in the evenings. The plan is to bring the restaurant to life by organising events and markets with food trucks in the courtyard. Guests should be able to visit the restaurant at different times of the day and take part in various experiences in the historic premises.

Smart produktinformation

To make cooperation between you as reseller and us as supplier as smooth as possible, we are now using the InRiver PIM product information system. With the help of this system, we can easily create and continuously update a feed of the products in our range that includes all relevant material linked to each product (images, text, technical data, etc.), and in turn is integrated into your product information system (E-commerce platform, PIM, business system, etc.). Thanks to this digital automation, we save both you and our staff valuable working hours and launch time to market is greatly reduced.

We also work with the Validoo product information system, which offers the same functionality to those in the grocery trade.

Certifications

ISO 9001 - This quality certification means that our company meets strict requirements and prevents complaints and internal shortcomings. A focus on continuous improvement and customer satisfaction.

ISO 14001 - A standard that requires the organisation to identify and constantly reduce its environmental impact.

Collaborations

MerxTeam believes in long-term collaboration for the development of jointly profitable commerce.

Collaboration requires open and clear communication. We offer, among other things, a high level of product knowledge, marketing material adapted for various channels, events and training, as well as end-customer processing.

We work closely with many respected chefs and restaurants for increased product awareness.

Sustainability

Ecological sustainability - We work to protect and help care for the external and internal environment. MerxTeam is also affiliated with FTI, the waste collection system for businesses that recycles packaging for a more sustainable future.

Social sustainability - Caring, respect and openness must characterise and form the basis of our relationship with our staff. To ensure that our suppliers around the world take care of their employees, we've been members of the Amfori Business Social Compliance Initiative since 2018. This means that we have adhered to a code of conduct that contains rules about preventing, among other things, corruption, child labour and work environment-related issues. Through our membership, we can work proactively to improve the working conditions in the factories we work with.

Financial sustainability - We're a well-established organisation that's been around for a long time, giving us a strong foundation to stand on..

Support

If questions or concerns arise, our employees are always on hand for sales support by phone or email.

Also, at merxteam.com, you can quickly and easily:

- Place orders.
- See prices and current stock status.
- Monitor and track deliveries.
- Search for invoices.

Logistics

We place great emphasis on flexibility, quality and time when we ship our goods, and offer flexible logistics solutions adapted to our customers' wishes.

We always strive to offer our customers the best availability and the fastest deliveries.
